---	---

2

Thematic Unit I: historical and cultural bases and basic concepts of care process

Topic 1. History of assistance to mentally ill

Item 2. Psychiatric and mental health nursing

Item 3. Ethical and legal considerations in mental health

Item 4. Mental health prevention and care

Item 5. Therapeutic modalities, self-care and nursing care.

Item 6. The mental health team and therapeutic environment.

Item 7. The therapeutic use of "Me" and fears in practice with people with mental disorders

Item 8. Nursing assessment of psychiatric patient. Psychopathological Exploration. Other explorations

Lab 1: ethical and legal considerations in mental health.

Lab 2: Stigma of psychiatric patient

Lab 3: Therapeutic modalities

Lab 4: Nursing assessment of psychiatric patient

Lab 5: Problems with the therapeutic relationship and the difficult patient

Thematic Unit II: Nursing in Psychiatric Disorders and Mental Health

Item 1. Delirium, dementia, amnesic disorders and other cognitive disorders

Item 2. Eating disorders

Item 3. Substance-related disorders. Impulse control disorders without classification section

Item 4. Dual Pathology

Item 5. Sleep disorders

Item 6. somatoform disorders

Item 7. factitious disorders

Item 8. Schizophrenia and other psychotic disorders

Item 9. Anxiety Disorders

Item 10 dissociative disorders

Item 11. Mood Disorders

Item 12. Personality disorders

Item 13. Disorders in infancy, childhood or adolescence

Item 14. Sexual and sexual identity disorders

Item 15. Adjustment Disorders

Item 16. Suicide

Item 17. Crisis intervention

Lab 6: Use and application of different types of restraint in psychiatry

Lab 7: Clinical cases

Lab 8: Anxiety and relaxation

Lab 9: Mobbing, bullying, burnout and job stress

Lab 10: Crisis Intervention

Lab 11: Session with Alcoholics Anonymous

7. ASSESSMENT METHODS AND CRITERIA

Description	Type	Final Eval.	Reassessn	%
Final exam, written exam	Written exam	Yes	Yes	60,00
Test online content related to the subject.	Activity evaluation with Virtual Media	No	No	20,00
Group / individual work, lab evaluation	Laboratory evaluation	No	No	20,00
TOTAL				100,00
Observations				
<p>It must be obtained a minimum score of five points over ten in the final exam in order to make the sum of all parts The 'no show' of the student to the final examination, obtaining a lower score of five points or not performing any other training activity scheduled on the course, does not exempt him/her from being qualified according to the score in other activities that have completed and passed (continuous assessment) The term 'no show' in the final grade for the course will be used only when the student has not done any of the evaluable activities and therefore has not been qualified in any occasion.</p>				
Observations for part-time students				
<p>Students who are in a part-time basis, will benefit from the following rating system: - Perform the final exam with a percentage weight of 80% - Conduct 50% of classroom practices with a weight of 20% For this type of evaluation, the student must make a written request to the course responsible teacher at the beginning of the course</p>
