

SUBJECT TEACHING GUIDE

M1497 - Probability and Statistics

Master's Degree in Mathematics and Computing

Academic year 2019-2020

1. IDENTIFYING DATA					
Degree	Master's Degree in Mathematics and Computing			Type and Year	Compulsory. Year 1
Faculty	Faculty of Sciences				
Discipline					
Course unit title and code	M1497 - Probability and Statistics				
Number of ECTS credits allocated	3	Term	Semester based (1)		
Web					
Language of instruction	Spanish	English Friendly	No	Mode of delivery	Face-to-face

Department	DPTO. MATEMATICAS, ESTADISTICA Y COMPUTACION				
Name of lecturer	ALICIA NIETO REYES				
E-mail	alicia.nieto@unican.es				
Office	Facultad de Ciencias. Planta: + 0. DESPACHO PROFESORADO (0070)				
Other lecturers					

3.1 LEARNING OUTCOMES

- To know, comprehend and be able to apply advance techniques of Probability and Statistics in professional situations and in doing research in Mathematics and Computation.

4. OBJECTIVES

Provide the students with the proficiency and techniques required for the professional environment and the research in probability and statistics.

6. COURSE ORGANIZATION

CONTENTS	
1	Advance probability (inequalities of Hoeffding, Jensen and Tchevichev, strong law of large numbers, Kullback-Leibler divergence)
2	Estimation with noise and statistical data depth.
3	Nonparametric hypothesis testing (permutation methods and bootstrap)
4	Combination of hypothesis tests (FDR and FDR with dependency).
5	Sequential analysis.
6	Stochastic processes (goodness of fit, Markov models and hidden Markov models).
7	Monte Carlo methods.

7. ASSESSMENT METHODS AND CRITERIA

Description	Type	Final Eval.	Reassessn	%
Continuous evaluation	Work	Yes	Yes	100,00
TOTAL				100,00
Observations				
Each student will write a paper related to the topic studied in class; it can be either of bibliographic or research nature.				
Observations for part-time students				
The evaluation of students at part time follows the same criteria than of students at full time.				

8. BIBLIOGRAPHY AND TEACHING MATERIALS

BASIC

Probability and Statistics (4th Edition) 2011. Morris H. DeGroot , Mark J. Schervish
