Observations				
<p>The final mark in the ordinary examination will be the sum of the marks obtained in the mid-term exams and continuous assessment activities. In order to pass the course, the student has to obtain a final mark equal or greater than 5 (over 10). The mark of the passed mid-term exams and continuous assessment activities is maintained for the extraordinary examination.</p> <p>Those students who do not pass the subject in the ordinary examination will have to do another exam in the extraordinary examination. This exam will be about the materials of all the modules and its structure will be similar to the mid-term exams and activities developed for the continuous assessment. Students will have to complete only the failed mid-term exams.</p> <p>Students who do not opt for continuous assessment activities and mid-term exams will be evaluated on the same terms as part-time students.</p>				
Observations for part-time students				
<p>Part-time students could pass the subject by obtaining a final mark equal or greater than 5 points in a final exam whose weight will be 100% of the final mark. Those students will have two opportunities: ordinary and extraordinary examinations. The exam will be about the materials of all modules and its structure will be similar to the continuous assessment activities and mid-term exams.</p> <p>Alternatively to the opportunity in the ordinary examination, part-time students may chose to do the mid-term exams and continuous assessment activities as full-time students. In this case, the mark obtained in mid-term exams and continuous assessment activities will be maintained for the extraordinary examination (as full-time students). The final exam in the extraordinary examination will be the same day of the full-time students' exam.</p>
