Observations				
<p>Minimum global grade of 5 and in the following parts a minimum grade of 4:</p> <ul style="list-style-type: none"> - Individual short projects on seepage and strength (35%) - Individual short projects on footings, rigid walls and slopes (52,5%) <p>Regarding those evaluation activities that the students can resit, the following general criteria were adopted at the regular meeting of the Civil Engineering School Board held on June 10, 2010:</p> <ul style="list-style-type: none"> - A student can only resit an evaluation activity that has not passed (i.e. a grading lower than 5 out of 10). - The evaluation activity in the resitting period will follow the same procedure and will have the same guidelines as in the ordinary period. <p>Note:</p> <p>According to Spanish regulations (RD 1125/2003) about the European credit system and the grading system for University degrees, each course will be graded using a linear scale between 0 and 10 with a precision of a decimal. According to that grading, a qualitative rating may be added:</p> <p>0.0-4.9: Suspenso (SS). Fail 5.0-6.9: Aprobado (AP). Satisfactory 7.0-8.9: Notable (NT). Good 9.0-10: Sobresaliente (SB). Excellent 9.0-10: Matrícula de Honor (MH). Outstanding (with honours)</p>				
Observations for part-time students				
<p>Part time students may ask for the following evaluation system:</p> <ul style="list-style-type: none"> - Written exam (50%) - Individual short projects on seepage, footings and rigid walls (50%)
