### 3.1 LEARNING OUTCOMES

- They critically and analytically read empirical studies on Second Language Acquisition .  
They formulate novel, sensible and theoretically interesting questions related to the field of Second Language Acquisition.
- They select adequate materials and techniques to give answer to particular research questions in the field of Second Language Acquisition.
- They appropriately analyse data from research on Second Language Acquisition .
- They assess the results of their own research in the light of findings from other investigations on the field of Second Language Acquisition.
- They create and use computerized corpora to obtain linguistic data usable in a corpus-based research

#### 4. OBJECTIVES

This subject aims at providing students with basic knowledge of research methodologies in the area of Second Language Acquisition, by emphasizing the differences between qualitative and quantitative research, as well as the use of learner corpora. Moreover, it seeks to acquaint students with the various written and oral conventions typically used to present research results in this field.

## 7. ASSESSMENT METHODS AND CRITERIA

| Description  | Type   | Final Eval. | Reassessn | %             |
|--|--------|-------------|-----------|---------------|
| CLASSROOM WORK (30%): students will carry out a series of practical activities throughout the course. These activities are related with the theoretical contents taught in class.  | Others | No          | Yes       | 30,00         |
| WRITTEN EXERCISES (70%): Students will do a set of exercises and answer a set of questions in a written form at the end of the course.   | Others | No          | Yes       | 70,00         |
| <b>TOTAL</b>   |        |             |           | <b>100,00</b> |
| <b>Observations</b>  |        |             |           |               |
| <p>According to Article 35 of the Regulation of the assessment processes at the University of Cantabria, "if a student does not obtain the minimum mark required to pass an evaluation test, the overall mark for the subject will be the lowest value between 4.9 and the weighted average of all the evaluation tests".</p> <p><b>ORTHOGRAPHY:</b><br/>It is assumed that university students have acquired linguistic abilities in relation to oral and written expression. Therefore, spelling, stress mark, punctuation, grammar and lexical correction in assignments and exams are an obligatory prerequisite to pass the subject.</p> <p><b>PLAGIARISM:</b><br/>Regarding the fraudulent performance in exams and assignments, the final mark complies with the provisions of article 32 of the Regulation of the assessment processes at the University of Cantabria: 'The fraudulent conduct in exams or assignments will be graded as Fail '0' in the subject in the corresponding call, invalidating the marks obtained in all the assessment activities for the extraordinary call'.</p> <p><b>CITATION NORMS:</b><br/>The Faculty assumes the APA STYLE as citation criteria for all academic work. Although there are several editions of these guidelines, a BUC link is attached as an initial reference: <a href="http://web.unican.es/buc/recursos/guias-y-tutoriales/guia?g=28">http://web.unican.es/buc/recursos/guias-y-tutoriales/guia?g=28</a></p> |        |             |           |               |
| <b>Observations for part-time students</b>   |        |             |           |               |
| <p>These students are subject to the same assessment requirements as full-time students. However, according to Article 24 of the Regulation of the assessment processes for part-time students at the University of Cantabria, students may opt for taking a single final assessment. Such assessment will involve the completion of a final theoretical and practical exam on the date established by the University. In any case, students must let their lecturer know their choice within the first two weeks of the semester by sending an email.</p>   |        |             |           |               |
