

SUBJECT TEACHING GUIDE

M1500 - Numerical Computation

Master's Degree in Mathematics and Computing

Academic year 2022-2023

1. IDENTIFYING DATA					
Degree	Master's Degree in Mathematics and Computing			Type and Year	Compulsory. Year 1
Faculty	Faculty of Sciences				
Discipline					
Course unit title and code	M1500 - Numerical Computation				
Number of ECTS credits allocated	3	Term	Semester based (1)		
Web					
Language of instruction	Spanish	English Friendly	Yes	Mode of delivery	Face-to-face

Department	DPTO. MATEMATICA APLICADA Y CIENCIAS DE LA COMPUTACION				
Name of lecturer	EDUARDO CASAS RENTERIA				
E-mail	eduardo.casas@unican.es				
Office	E.T.S. de Ingenieros Industriales y de Telecomunicación. Planta: - 4. DESPACHO PROFESORES (S4019)				
Other lecturers					

3.1 LEARNING OUTCOMES
- Knowledge of the efficient methods and their correct programming
- Knowledge of the various methods of approximation and data processing.
- Knowledge of the computational difficulties associated with problems of large size and alternative methods for their resolution
- Identification of the difficulties of the numerical computing related to the limitations of the computers.
- Identification of well and ill conditioned problems, and stable and unstable algorithms.

4. OBJECTIVES

To deepen in the knowledge of the numerical computation, identifying the difficulties motivated by the rounding error of the computer, and the ill conditioning or the large size of the problems.

6. COURSE ORGANIZATION

CONTENTS

1	Introduction to the numerical computation
2	Approximation of functions: least squares and fast Fourier transform
3	Solution of systems of nonlinear equations
4	Solution of boundary value problems for ordinary differential equations

7. ASSESSMENT METHODS AND CRITERIA

Description	Type	Final Eval.	Reassessn	%
Final exam	Laboratory evaluation	Yes	Yes	100,00
TOTAL				100,00
Observations				
Observations for part-time students				
Part-time students will be assessed as the rest of the students, in a single final exam.				

8. BIBLIOGRAPHY AND TEACHING MATERIALS
