3.1 LEARNING OUTCOMES

- Getting the students to familiarize themselves with the functioning of the social jurisdictional order regarding the way in which the claims, the different demands, resources and other requests that can be formulated in this social branch of law have to be articulated. The academic explanation must encompass both the knowledge of the way in which the lawyer must act in his intervention before the Court, and the response that can be expected from the judicial body before the type of request or claim made.

4. OBJECTIVES

The training in this area has been aiming the acquisition of skills, attitudes and knowledge on the subject of social law, in order to advice companies and workers, to analyze and write juridical documents, the management of administrative and judicial procedures and, in general, in order to the proper practice of the profession in this field.
