3.1 LEARNING OUTCOMES

- the student knows and applies different theoretical approaches to foreign language acquisition
- the student identifies the differences between the linguistic development of the mother tongue and the foreign language
- the student assesses the effect of the age factor on the acquisition of English as a foreign language
- the student identifies the different stages in the phonological, morpho-syntactic and pragmatic development of English when the learning of English happens in formal instruction contexts
- the student foresees and diagnoses potential cross-linguistic interferences between his/her mother tongue and English, and suggests methodological solutions

4. OBJECTIVES

This subject aims at providing students with the basic knowledge in the field of Second Language Acquisition from a two -fold perspective.

First, it focuses on theoretical proposals which attempt to account for the outcome and process of second/foreign language acquisition/learning.

Second, it addresses qualitative and quantitative research findings in the field, with particular emphasis on the results regarding the acquisition of English as an additional language.

Special attention will be paid to the role of certain variables in second/foreign language acquisition/learning, namely the influence of the first language, age, and exposure.

Observations

SUMMATIVE ASSESSMENT

Both the written assignment and the oral presentation have to be submitted/delivered on the dates established by the teacher throughout the course. According to Article 17 of the Regulation of the assessment processes at the University of Cantabria, 50% of the final mark will have been assessed before the lesson period ends.

SCORING

To pass the course students must pass the written exam and the written paper. According to Article 35 of the Regulation of the assessment processes at the University of Cantabria, "if a student does not obtain the minimum mark required to pass an evaluation test, the overall mark for the subject will be the lowest value between 4.9 and the weighted average of all the evaluation tests".

LANGUAGE AND ORTHOGRAPHY

It is assumed that university students have acquired linguistic abilities in relation to oral and written expression. Therefore, spelling, stress mark, punctuation, grammar and lexical correction in assignments and exams are an obligatory prerequisite to pass the subject.

PLAGIARISM

Regarding the fraudulent performance in exams and assignments, the final mark complies with the provisions of article 32 of the Regulation of the assessment processes at the University of Cantabria: 'The fraudulent conduct in exams or assignments will be graded as Fail '0' in the subject in the corresponding call, invalidating the marks obtained in all the assessment activities for the extraordinary call'.

CITATION NORMS

The Faculty assumes the APA STYLE as citation criteria for all academic work. Although there are several editions of these guidelines, a BUC link is attached as an initial reference: <http://web.unican.es/buc/recursos/guias-y-tutoriales/guia?g=28>

Observations for part-time students

These students are subject to the same assessment requirements as full-time students. However, according to Article 24 of the Regulation of the assessment processes for part-time students at the University of Cantabria, students may opt for taking a single final assessment. Such assessment will involve the completion of a final exam and the submission of a written paper on the date of the final exam. In this case, they must let the teacher know this within the first two weeks of the semester by sending an email indicating their choice.
