Observations				
<p>According to the regulations of the University of Cantabria, fraudulent completion of exams or assessment activities will result directly in a failing grade of '0' for the course in the corresponding exam session, invalidating any grade obtained in all assessment activities for the extraordinary exam session. Plagiarism will be considered when there is a literal reproduction of information obtained from other authors without indicating it with the corresponding references, citations, and quotation marks. Likewise, this grade will be obtained in cases where the absence of an original discourse is evident, and there is almost literal copying of a text by altering the order of words or using mere synonyms to hide plagiarism.</p> <p>In the case of students with special needs recognized by SOUCAN, the professor will consider implementing the recommendations of this body as much as possible, in order to allow the evaluation of these students with the same guarantees as the rest of the students.</p>				
Observations for part-time students				
<p>Part-time students who do not attend class under this enrollment modality must still complete all assessment activities outlined in this guide. Additionally, they must compensate for their non-attendance (20%) by providing a review of a minimum of two readings proposed by the faculty.</p>
