3	3 PRODUCTION MANAGEMENT IN THE COMPANY Lesson 10 °. Introduction to the company's production system Lesson 11 °. Production productivity and costs analysis Lesson 12 °. Supply chain management Lesson 13 °. Production forecast

7. ASSESSMENT METHODS AND CRITERIA				
Description	Type	Final Eval.	Reassessn	%
written exam	Written exam	No	Yes	30,00
written exam	Written exam	No	Yes	30,00
written exam	Written exam	No	Yes	30,00
Note To pass each partial objective test it is necessary to obtain a grade equal to or greater than 4.00. It will be approved by course when the partial tests have been passed and the weighted average is equal to or greater than 5. The recovery of the fai	Others	No	No	10,00
TOTAL				100,00
Observations				
Note To pass each partial objective test it is necessary to obtain a grade equal to or greater than 4.00. It will be approved by course when the partial tests have been passed and the weighted average is equal to or greater than 5. The recovery of the failed partial tests will be carried out on the dates indicated by the management of the center. Notes of partial tests of the ordinary call for the extraordinary one are not kept. The remote evaluation of the works, practical laboratory exercises and written tests is foreseen in the event that a new health alert for COVID-19 makes it impossible to carry out the evaluation in person				
Observations for part-time students				
Note for part-time students The same criteria of evaluation will be applied to the part-time students as to the full-time student, although the temporary distribution of activities may be adapted to the temporary conditions, when it is considered necessary.
