3.1 LEARNING OUTCOMES

- Knowing the figures of the Spanish tax system at different levels of government (state, regional and local), both in its personal and business taxation
- Liquidate the different taxes that make up the Spanish tax system by using the various programs of assistance for completing tax returns
- Reasoning the need for public sector intervention in a market economy.

4. OBJECTIVES

Knowing the figures of the Spanish tax system at different levels of government (state, regional and local), both in its personal and business taxation

calculate the different taxes that make up the Spanish tax system by using the various programs of assistance for completing tax returns

The aim is to familiarize students with new information technologies and communication applied in taxation. State Tax Administration Agency (A.E.A.T.) has set up a system that allows the completion and submission of various tax models, mainly its quarterly and annual periodic models.

7. ASSESSMENT METHODS AND CRITERIA				
Description	Type	Final Eval.	Reassessn	%
Practice: Tax Agency Assistance Program Renta web	Work	No	Yes	20,00
Workgroups: presentation of topics in class	Work	No	Yes	20,00
Evaluation question of practical cases	Written exam	Yes	Yes	60,00
TOTAL				100,00
Observations				
As is apparent from the above table: <ul style="list-style-type: none"> • 60% of the rating results from a final written exam on the entire course syllabus. The exam has two practical cases (30% of score each). It is necessary to prove a basic knowledge in each of the parts to pass the subject. • The remaining 40% corresponds to the activities subject to continuous evaluation whose percentage breakdown is as follows: 20% will correspond to group work to present from week 14, the other 20% to the presentation and passing the course to perform with the aid program of the AEAT for that you can apply this formula evaluation the student must obtain the written final exam a minimum score of four points out of 10. All these activities will be evaluated before the end of the contact sessions . The recovery of those for practice and group work is achieved credits exceeding the written exam of the ordinary or extraordinary calls The recovery of evaluable credits for the final exam will be done by overcoming the written examination of the extraordinary call 				
Observations for part-time students				
Part-time students will receive 100% of the grade in the theoretical and practical examination of the entire subject in ordinary and extraordinary calls
