- **online platforms**

TECHNOLOGY AND DISTANCE LEARNING

Internationalisation Strategy

The University of Catania (UNICT) includes the process of internationalization among its strategic activities. Internationalization is intended as the process to foster three international dimensions:

- Individual level: it concerns the development of the international perspective of persons acting at UNICT: students, teachers and staff;
- Academic level: it concerns the development of international curricula (double degree, joint degree, study-abroad programs).
- Civic Level: as a public body, universities have a crucial role in educating people, tackling societal issues and providing policy solutions to institutions and large public.

UniCt's Internazionalisation strategy and the Erasmus Plus programme

The Erasmus Plus three actions
(KA1, KA2 and KA3) fits with
UniCt's Internationalisation three
International dimensions

International Relations

Agreements

In the framework of Erasmus + and Unict's mobility programme, more than 100 international agreements and MOUs are in place with 50 countries all over the world

Università di Catania

EUNICE

- European University Alliance
- Focus on **multilingualism** and **multiculturalism**
- quality **education** meets **research, innovations, society and industry**
- **customised curricula** and **work-based tasks**
