

Resolution of 19 October 2020 of the Vice-Rectorate for Internationalization and Cooperation of the University of Cantabria, which establishes the regulatory bases and approves the present call for International Credit Mobility grants for incoming exchange students in the framework of the KA107 action of the Erasmus+ program (projects 2018-1-ES01-KA107-049471 and 2019-1-ES01-KA107-061847)

1. INTRODUCTION

Under the Erasmus+ International Credit Mobility action (KA-107), partner Higher Education Institutions (HEIs) in a Partner Country¹ can send its students and doctoral candidates to a partner HEI in a Programme Country², and vice versa. Students or doctoral candidates are able to study abroad for a limited period of time for which credits/academic recognition are obtained.

2. SPECIFIC OBJECTIVES OF THE CALL

The Vice-rectorate for Internationalisation and Cooperation of the University of Cantabria announces 22 Erasmus+ grants for incoming exchange students during the academic year 2020-2021 within the framework of the Erasmus+ International Credit Mobility projects 2018-1-ES01-KA107-049471 and 2019-1-ES01-KA107-061847 that will be distributed among the following partner universities according to the existing Inter-institutional Agreements with the University of Cantabria and taking into account the Erasmus+ Programme rules and the availability of places: Indian Institute of Technology Madras, Institut National des Postes et Télécommunications, Mari State University, National University Cooperation Yamaguchi, Sami Shamon College of Engineering, Universidade de Cabo Verde, Université Abdelmalek Essaâdi de Tetouan, Université Cadi Ayyad, Université Internationale de Rabat and University of North Carolina in Charlotte.

The mobility grants of this call are financed by the Erasmus+ Programme and are carried out under the budgetary application of the Vice-rectorate for Internationalisation and Cooperation, its concession being conditioned to the existence of adequate and sufficient budgetary credit.

Accepted incoming students from the partner universities participating in these projects will be able to spend a exchange period at the University of Cantabria for which academic recognition will be obtained. After their mobility period, they will return to their sending institution to complete their studies and get academic recognition of those courses successfully passed at the University of Cantabria. Partner universities will ensure recognition for successfully completed courses of the mobility students.

This call gathers the criteria for the application of candidates following the guidelines established by the European Commission for this action, as well as the guidelines established by the Spanish Service for the Internationalization of Education (SEPIE).

3. DURATION AND FINANCING OF THE INTERNATIONAL MOBILITY

The selected applicants will obtain a grant for travel costs and a grant for individual support. The grants offered may not cover all the possible expenses, but are considered as a contribution to bearing the additional costs of staying abroad. In case that the amount is insufficient to cover all costs, the students will need to find other funding sources.

¹ the rest of the world except Switzerland, Andorra, Monaco, San Marino, the Vatican City State, as well as Iran, Iraq, Yemen and the countries of the Gulf Cooperation Council.

² Belgium, Bulgaria, Czech Republic, Denmark, Germany, Estonia, Ireland, Greece, Spain, France, Croatia, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Hungary, Malta, Netherlands, Austria, Poland, Portugal, Romania, Slovenia, Slovakia, Finland, Sweden, United Kingdom.

This project has been funded with support from the European Commission. This communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

3.1 Duration

Duration of student's exchanges: minimum 3 and preferably 5 months maximum. The maximum duration will be determined by academic justification and the budgetary availability of the project. Mobility must be finished by July 18, 2021 at the latest.

Students attending regular courses must stay for a whole academic semester at the receiving institution so as to be able to attend classes and exams. The duration of the stay of Master and PhD students preparing their thesis will require to be previously agreed with both the academic coordinator at the home and at the host university.

3.2 Travel costs contribution (one round trip plane ticket)

Flight tickets will preferably be purchased by mobility participants according to the program regulations, based on the Erasmus+ distance calculator maximum fees:

Country of origin	Travel Distance Band	Maximum amount per participant
Cape Verde	Between 3000 and 3999 Km	530 €
India	8000 Km and more	1500 €

In the event that participants find difficulties to purchase the flights by their own means, they can apply to the University of Cantabria for their purchase, with the limit imposed by the corresponding travel distance band.

3.3 Individual support for students

Selected participants will receive a monthly allowance under this call that amounts to 850 €/ month. The total amount will be calculated on the basis of the number of days academically justified within the framework of the stay. Payments will be carried out in different instalments in accordance with the following procedure:

- 50% of the total amount of the grant will be paid to the grantee upon arrival at UC.
- 30% of the total amount of the grant will be paid before the end of the third month.
- 20% of the total amount of the grant will be paid by the end of the exchange period, once the grantee has completed the Erasmus+ online survey. However, this last payment is considered as a **balance payment**, thus possible adjustments could be made in case of a variation in the duration of the Erasmus+ stay initially approved.

Students obtaining this Erasmus+ grant are entitled to keep any other national grant in their home country and applicants with special needs may apply for additional funding (please contact the UC to request information concerning the availability of these funds).

Once the period for submission of applications has concluded, partner universities shall conduct a check to ensure that candidates and documents meet the formal requirements and have been submitted in full before proceeding to validate candidates. Those candidates who are validated will be eligible for the selection process.

During the first stage of the selection process, partner universities will assess the applications of the students enrolled in their institution. The evaluation will be made according to the following criteria:

Partner universities will rank evaluated candidates by total score in a nomination list and will include in every case the status 'nominated', 'reserve list' in case there are not enough grants offered for all the evaluated candidates or 'non admitted' if the applicant does not meet the requirements.

The Internationalisation Committee of the University of Cantabria will validate the selection results sent by partner institutions including the status 'selected', 'waiting list' or 'not validated' to each candidate and will proceed to issue the final nomination list.
